

Illinois Meeting

Gurnee American Legion | 749 Milwaukee Ave. | Gurnee, IL 60031

Date: Wednesday, April 29, 2020

Speakers: Phil Saari & John Papa (Club Members)

Topic: *Boat Rigging 101*

This meeting will be just a bit different. Club members Phil Saari & John Papa have agreed to spend the evening talking about the basics for successfully rigging your Multi-specie boats.

This duo have years of boat rigging experience and have rigged a number of club members and other angler's boats. If you want to eliminate issues or just install some more options on your boat, you'll find this presentation very beneficial.

This topic could be an entire course and cover hours of do's and don'ts. This evening the boys will concentrate on the following topics: *Electronics Installation, Boat Wiring Basics, Marine Batteries* and more. Whether you are a DIYer or have a marina work on your boat it is important to understand how repairs and upgrades should be completed correctly.

In recent years, custom accessories for boats have exploded. They will give you some recommendations on what has been successful and what you may want to consider for your own rig. There will be plenty of time for Q & A so if you are having some issues so bring your questions.

If you have not been to one of our members presentations you'll be in for a treat. Typically they are some of the best meetings of quality information with none of the commercials that we tend to experience. Mark your calendar's today, this is one you will not want to miss!
