

Virtual Zoom Club Meeting

Date: Wednesday, March 31, 2021

Speaker: Ross Robertson - *Big Water Fishing*

Topic: *Improving Your Fishing Efficiency*

Capt. Ross Robertson has made his complete living as a full time professional angler for more than 20 years. Through the years he has worn many hats including time as a fishing guide, boat salesman, TV host, outdoor writer, product designer, tournament fisherman, speaker, radio host and podcaster to name a few.

The ***Bigwater*** team fishes ice-out to ice-up on the Great Lakes. Specifically they spend the majority of the year chasing walleye on Lake Erie's Western and Central basins. For most of the season, they call Port Clinton, Ohio their home base.

Ross is committed to making his trips both fun and educational. He specializes in trophy walleye, educational trips and just plain having a good time away from the daily grind. Most of our charter trips accommodate 1 to 3 guests, but he does have multiple boats available for larger parties.

Ross' tournament winning team has been featured in outlets such as *In-Fisherman*, *Outdoor Life*, *Field and Stream*, *FLW*, *The Meat Eater* as well as many newspaper and other national publications.

This will be a unique opportunity to spend time with one of the premier walleye anglers in the country. Ross has a vast and unique set of skills that he will share with us. The majority of his presentation will be centered on Improving Your Fishing Efficiency to maximize your fishing trips. The little things that the most successful pros rely on. This is one meeting you will not want to miss.
